V75 – REISSUED SERIES

Featuring the Wilkinson WTB Bridge this classic 3-saddle design has been around for over 50 years and is still regarded as the ultimate tone machine. Staggered brass saddles offer individual string intonation never before available in a design of this type. The baseplate itself is a faithful reproduction of the original, made from steel, very important in a bridge of this style due to the tonal effect it has on the magnetic field of the pickup mounted in it.
